DSihold
Secure. Defensible. Easy.

You need a platform that **SIMPLIFIES LEGAL HOLDS**… A centralized system that allows you to **EASILY NOTIFY CUSTODIANS**… A product that **TRACKS ACKNOWLEDGMENTS**, sends updates and escalations and automates the custodial interview process… **SECURE** software installed **BEHIND YOUR FIREWALL** and integrated through the company intranet… A **FLEXIBLE** option that helps you **IMPLEMENT BEST PRACTICES** and **FULFILL COURT REQUIREMENTS**.

### DSihold is the easy way to manage litigation holds.

DSihold is a centralized system that allows managers to easily notify custodians of a legal hold, track acknowledgments and send updates and escalations. Deployed behind a company's firewall and integrated with your intranet, DSihold provides more security than legal hold software that works through the Internet because no custodial information is stored online.

COMPREHENSIVE FEATURES

- Administer multiple cases
- Manage employees/custodians and assign groups
- Schedule notifications and reminders
- Automate custodial interviews
- Audit acknowledgments
- Route escalations
- Monitor case status

DSiHOLD

- **Reduces costs by seamlessly integrating with company intranet and DSi's other platforms to provide a comprehensive eDiscovery solution**

- **Allows you to assign credentials for each administrator, manager or reviewer**

- **Eases the litigation hold process with customizable email templates for acknowledgments, reminders, escalations and releases**

- **Simplifies custodian interviews by automating the process with secondary dependency questions**

- **Saves you time by letting you view the number of custodians, the names of those who have received acknowledgments, who has replied and when these activities occurred**

- **Minimizes risk because it is installed behind a company's firewall, making this the most secure litigation hold software available**

DSihold's login screen includes a Quick Start Guide. After logging in, tabs and features are displayed according to credentials: administrator (all access), manager (can view subordinate's information) and reviewer (can only see his or her information).

The Cases screen shows all cases the company is or has been involved in since using DSihold. Cases can be edited and reports can be run and exported as needed.

DSihold

DSIHOLD **SIMPLIFIES AND AUTOMATES** THE LITIGATION HOLD PROCESS WITH ONE EASY-TO-USE PLATFORM.
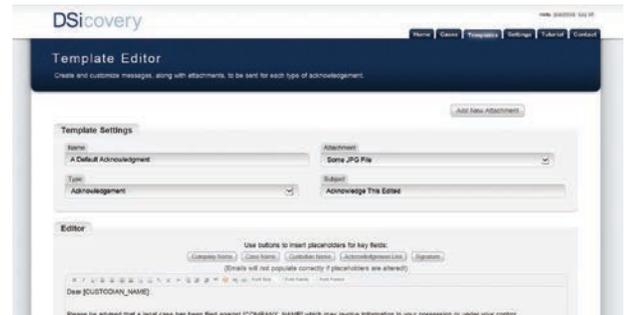

COMPREHENSIVE

DSihold seamlessly integrates with DSi's other platforms and procedures to provide a customized, comprehensive, defensible enterprise eDiscovery solution. The platform's flexibility also allows DSi to engineer customizations within enterprise environments. Plus, while DSihold is available as a stand-alone product, it will also be automatically included with our proprietary Remote Governance and Collections Platform (RGC) for no additional charge. RGC is an eminently scalable platform that securely and remotely identifies, collects, verifies, filters and transfers data in a timely and cost-effective manner.

In addition to tracking all custodians, DSihold provides customizable email templates and can send automated emails for acknowledgments, reminders, escalations, releases and case reports.

SECURE AND DEFENSIBLE

DSihold is installed behind a company's firewall and integrated with the company intranet instead of handling information through the Internet, making it the most secure legal hold software available. With no custodial information stored online, you can rest assured you are taking care of your legal holds in a secure, defensible manner.

DSihold's user-friendly interface simplifies the litigation hold process.

EASY TRACKING

Data preservation is important. DSihold automatically distributes notifications, tracks acknowledgments and sends escalations and reminders, meaning you can stop worrying about sanctions from poor or nonexistent legal hold management.

> "*Managing litigation holds was almost impossible with spreadsheets or email programs like Outlook. The fear of accidentally deleting data that could lead to court sanctions was always on the back of your mind. With DSihold, we can rest assured that our legal holds are taken care of from start to finish. It's an easy-to-use platform to manage all aspects of lit hold.*"
